ORGANIC CHEMISTRY

Josie Maran | Founder, Josie Maran Cosmetics, Hollywood, California

► Ten years ago, when Josie Maran first learned about argan oil, she was on a modeling assignment in France. The then little-known Moroccan emollient did more than soothe her dry, irritated skin (an occupational hazard); it sparked a revelation and the 2007 launch of her brand, Josie Maran Cosmetics. Her goal was simple: to create a range of natural, effective, and luxurious beauty products. Having accomplished just that, this ecobeauty guru embraces life's simple pleasures, whether at her L.A. home or her family's rural Pennsylvania farm.
